SBE Refresher 1 – Research with Children

Massachusetts Institute of Technology Affiliates - Data or Specimens Only Research

Quiz

Instructions: Please provide an answer for all questions. Each question is one point. Click on the Submit button to register your answers. After submitting your answers, the correct answer to each question and an explanation will be displayed. Navigational links to the next module will also be provided.

All quiz questions count towards your score. You should answer all questions.

Question 1

Which of the following research activities with children qualifies for exemption?

- ☒ **A researcher observing children on a playground to identify bullying behaviors.**
- ☐ A researcher using small focus groups to talk to adolescents about the impact of stereotypes.
- ☐ A researcher interviewing fifth graders whose parents recently divorced.
- ☐ A researcher using a socio-metric measure in the classroom to assess conflict resolution.

Question 2

In accordance with federal regulations, which of the following statements best describes when research with children may be exempt?

- ☐ If the level of risk is minimal, research that may be exempt is the same for adults and children.
 - ☒ **Only certain exemption categories can be used with research involving children.**
 - ☐ The researcher's assessment of the children's cognitive abilities determines which categories of exempt research may be used.
 - ☐ The age of the children to be enrolled in the study determines which categories of exempt research may be used.
